Street Lighting in Chichester - Hours of Operation (Public Consultation)

Over 100 responses were received during the Public Consultation and the matter was discussed by members of the City Council at their Council Meeting on Wednesday 10 September 2014.

At the meeting it was agreed that “... **part-night lighting be introduced to the City with the exception of College Lane, twittens, Litten Terrace where all night lighting remains and any pathways or areas the Police may be concerned about.**” The City Council has forwarded this decision to West Sussex County Council for action in conjunction with SSE Contracting.
